Description of Brockway.

While at Brockway this week we made a visit to the stores and business places to the village to see if we could ascertain the secret of the large business being carried on there and think we have found it out, at least, part of it, and that is the merchants all carry complete stocks and we presume sell close.

W. H. Ballentine, the postmaster has a fine store and well stocked in every department. Miss A. & E. O'Leary have their store piled as full of goods as possible and sold out as fast as they can be handled.

M. Magnus the live grocer has a full stock of everything in his line. Harris Bros have a fine Carriage and Wagon shop and doing a good business. They employ from 14 to 16 men most of the time, and are behind on some special orders.

We noticed their ware room was pretty well filled with buggies and wagons which we understand are all first-class and are selling them very cheap according to the quality.

D. G. Rodgers the harness maker informs us that he is very busy and has ten orders ahead for harness. He says he turns out from three to four sets each week.

R. Lankin and H. Pearce are contractors and builders and are at all times ready to take contracts for building.

Wm Moore deals in lumber, lath, etc. E. A. Gustin handles the best pumps manufactured. Roberts & Goushman attend to the wants of the travelers at the Brockway House.

J. W. Gustin is the attorney at law and understands his profession. Drs Gowen & Son practicing physicians tend to the sick. John Ard shoes their horses and does repairing.

Kavanaugh & Gerot are the boot and shoe makers. Shannahan & Shepherd supply the people with all kinds of fresh meats.

Kane Bros. always keep on hand a large stock of musical instruments. Mr. McGee runs the flour and grist mill. Prof Drake is the principal of the public schools.

The good work of Revs McCarroll, Harrisman and McDonald is worthy of mention, also the work of the good men and women in the Sunday Schools. All seem to be happy and prospering.

Brockway is a very pleasant place and only needs a little fixing up to make it a beautiful village. The sidewalk question is being agitated somewhat while the demands for a new school house are becoming louder and more imperative.

The good sense of the people will undoubtedly guide them to adopt the wisest course in both these respects. The side walks going east of the village certainly need attention, and the school house is too far from the village and too small to accommodate the scholars.

The business men and heaviest tax payers are anxious to be taxed for a new school house suitable for the wants of the district. They feel that money invested in public enterprises and improvements is well invested and will pay.

I wish to announce to the citizens of Brockway Centre and vicinity, that after a grand consult of all the barbers in Wolverine state, I do proclaim and make known to all that I, S. B. Hughes, have fitted up a Barber Shop in the nearest manner available, where I will be at all times, ready to give them a complete cutting reception and completely divest their physiognomy of nature's unsightly production. Now witness my skill and the great seal of my razors and scissors in the year of Blue Beard 1882.
